

What's New at the Alternative Fuels Data Center JULY 2001

Listed below are new publications and other information made available in July through the U.S. Department of Energy's Alternative Fuels Data Center managed by the National Renewable Energy Laboratory. For more information or questions, contact Wendy Dafoe at wendy_dafoe@nrel.gov, or call 303-275-4470.

Current and past issues of this report are now available on the Web at
http://www.ccities.doe.gov/toolbox/coord_news.shtml.

NEW INFORMATION AND PUBLICATIONS

Some documents are available in hard copy, as indicated below. For hard copies call the Hotline at 1-800-CCITIES.

- ◆ A new **Alternative Fuels Price Report** is available on the Web. See <http://www.afdc.doe.gov/documents/pricereport/pricereports.html> for links to all issues.
- ◆ The presentations from Clean Cities University 101/102 session at the Clean Cities conference are available on the Web at http://www.ccities.doe.gov/conf_presentations.html#sunday
- ◆ We've added a Web page listing **Clean Cities in order of designation** at <http://www.ccities.doe.gov/chron.shtml>. This page is linked from the coalitions map Web page at http://www.ccities.doe.gov/coalitions_map.shtml
- ◆ **Biodiesel: On The Road To Fueling The Future** is available on the Web at <http://www.biodiesel.org/bdreport.pdf>. Contains good primer information on biodiesel. The pdf file is large and takes time to download. Limited hard copies available. Produced by Hart/IRI Fuels Information Services in association with numerous groups.
- ◆ **What's New on the Web** is a useful document for introducing people to some the many Web sites associated with alternative fuels. See http://www.afdc.doe.gov/pdfs/whats_newWeb.pdf; also available in hard copy.
- ◆ We've added a Web page with information about the **Environmental Justice workshop** in New York City October 16, 2001. See http://www.ccities.doe.gov/EJ_AltFuel.html for registration and agenda details.
- ◆ The Gas Technology Institute (GTI) is looking for unique ideas on how to solve future problems such as energy shortages, unreliable delivery of electricity, highway gridlock, air and water pollution, and urban sprawl. The **Competition on Metropolitan Energy Design** will identify the most innovative plans to meet growing energy needs. Sponsored by GTI in cooperation with DOE and the energy industry. Entries due November 20, 2001. See http://www.ccities.doe.gov/pdfs/Energizing_America.pdf for entry information.
- ◆ **The Border Energy Forum** is October 24-25 in Tucson. The annual U.S.-Mexico Energy Forums promote better communication and help plan the development of new projects.

- ◆ **Thermal Evaluation of the Honda Insight Battery Pack.** Summarizes hybrid vehicle test efforts at the National Renewable Energy Laboratory (NREL), with a focus on the Honda Insight's battery thermal management system. On the Web at http://www.afdc.doe.gov/pdfs/Thermal_Eval_Insight.pdf, also available in hard copy.
